Together we are building our future

_____ Building the future together – this is the motto of about 5,000 employees working in the Herrenknecht Group worldwide in the implementation of innovative technologies.

Nearly everywhere in the world where tunnels are built with mechanized tunnelling technology, machinery and equipment from Herrenknecht are used. The basis of our success are a highly motivated team, profound knowledge and expertise, the most advanced technology and modern organizational structures.

To maintain our levels of excellence as a global market leader in the future as well, we welcome new minds who master challenges with initiative, team spirit and a sense of responsibility.

Use our Careers pages to learn all about your career and development opportunities and the many benefits offered to you by the Herrenknecht Group.
